

Belts "R" US

As many of you will know, obtaining drive belts for the DAF has become extremely difficult.

Volvo Dealers no longer stock the belts although they are prepared to order them for you providing that you pay up front the full amount. But the Volvo price is now exorbitant.

We have made it known in recent months that the DAF Owners Club had been investigating whether we could have belts manufactured subject to the scale of production runs we would have to commit to.

Well, the good news is that we have been able to negotiate a favourable deal and have commissioned new belts for the full range of DAF cars and Variomatic Volvos.

The first batch of belts have now arrived and are in stock available to buy.

The drive belts are available as follows:

DAF 33	£105 per pair plus p+p
DAF 44/55	£140 per pair plus p+p
DAF 66, Volvo 66 and 340	£160 per pair plus p+p

Or you can order a set and collect at a meeting or event.
